Write question

Write the **main text** of the question below. Make sure the question is clear and unambiguous, and use language which is professional. Feel free to format the text of your question using the formatting options.

Alternatives

Write **up to five** alternative answers for the question you have written above. Make sure each alternative is distinct, and of course, you must ensure that **exactly one** of the alternatives is the correct answer to your question. You may choose to define fewer than five alternatives (by simply leaving some of the text areas empty), but you must at least provide two alternatives.

You **must indicate** which of the alternatives is the correct answer to your question by selecting the letter to the left of the alternative.

A

B

C

D

E

Explanation

You should provide an explanation for your answer. This explanation will only be shown to people **after** they have selected what they think is the answer to your question, and may help to explain to them why the alternative you have suggested is indeed the correct answer.
